

Course Description

If you are new to Calix, then this course is a great place to start! It provides an overview of the Calix Software Defined Access Solutions designed for every network and built on AXOS, the only true software defined access architecture. It also provides a quick introduction to Calix Cloud and Premises solutions.

Objectives

- Describe Calix and the Subscriber-Driven Intelligent Access Network.
- Describe the Calix AXOS-based system platforms and solutions.
- Describe the Calix Cloud Solutions.
- Describe the Calix Premises Solutions.
- Know where to find Calix Resources.

Who should attend?

- Network Operations
- Customer Support
- Field Technicians
- Engineering/Planner
- Sales

Delivery Mode

This interactive online eLearning course consists of content delivered as video clips, simulations, demonstrations, and other self-paced formats. Learners are prompted to interact with the content as they progress through the course. Calix eLearning courses are often accompanied by voice-over audio. To get the most out of your learning experience, Calix recommends accessing your eLearning course through Chrome or Firefox.

Course Duration: 45 minutes
